PROFESSIONAL SUMMARY

Production and Process Engineer with strong experience in **manufacturing environments**, **Lean transformation**, and **cross-functional project leadership**. Proven track record in identifying and delivering high-impact **cost-saving initiatives (>$400,000 annually)** and optimizing **production lines** both technically and operationally.

Experienced in **leading projects from concept to implementation**, supporting **production line installations**, and driving **continuous improvement** across teams. Proactive, structured, and results-oriented mindset with strong focus on **efficiency**, **people development**, and **process optimization**.

CORE COMPETENCIES

- **Lean Manufacturing** (5S, Kaizen, Continuous Improvement)
- **Production & Process Optimization**
- **Project Management & Cross-functional Leadership**
- **Cost Reduction & Value Engineering**
- **Production Line Implementation**
- **Root Cause Analysis & Problem Solving**
- **KPI Tracking & Data-driven Decision Making**

PROFESSIONAL EXPERIENCE

PILLÉR NONPROFIT KFT Budapest
Frontend Developer / Tester / Backend Intern 2022 – Present

- Worked on **multiple parallel projects** in a complex enterprise environment, collaborating with **cross-functional teams** (development, DevOps, product).
- Applied **structured problem-solving** and **process-oriented thinking** to improve system quality, usability, and delivery efficiency.
- Supported **end-to-end development lifecycle** from testing through implementation, strengthening coordination between **technical and non-technical stakeholders**.
- Contributed to **continuous improvement** by identifying optimization opportunities in both **technical workflows** and **team collaboration**.

BECTON DICKINSON HUNGARY KFT Tatabánya
CI Engineer 2021 – 2023

- Led **Lean-based improvement initiatives** across production areas, increasing **efficiency** and optimizing **resource utilization**.
- Identified and implemented **cost-saving projects**, achieving over **$400,000 annual savings** through **process optimization** and **material flow redesign**.
- Analysed **production data and KPIs** to support **data-driven decision-making** and continuous improvement.
- Educated and supported teams in **Lean principles**, fostering a culture of **operational excellence**.
- Initiated and drove **process improvements** impacting both **technical systems** and **human workflows**.

Production Support Engineer 2019 – 2021

- Coordinated and optimized **production line operations** to ensure **efficiency** and achievement of **production targets.**
- Supported **root cause analysis** and troubleshooting of production issues, minimizing **downtime**.
- Collaborated with **cross-functional teams** to improve **production stability** and process performance.
- Contributed to improvements in both **technical and human aspects** of production processes.

FLOWELL KFT Budapest
Project Engineer 2018 – 2019

- Planned, managed, and coordinated **industrial projects** from concept to execution.
- Managed **timelines, resources, and stakeholders** to ensure **on-time delivery**.
- Supported **installation and implementation** of industrial systems.
- Monitored project progress and ensured compliance with **technical and quality requirements**.

EDUCATION

BUDAPEST UNIVERSITY OF TECHNOLOGY AND ECONOMICS Budapest, Hungary

- **BSc in Mechanical Engineering** 2013 – 2019
  Specialization: Process Engineering

ADDITIONAL INFORMATION

- Strong **leadership mindset** with experience in **cross-functional coordination**
- **Structured, proactive, and solution-oriented** approach
- Experience in **multinational manufacturing environment**
- Driving license (Category B)

HOBBIES/INTERESTS

Proud father of two young boys, and a little girl. Formerly served as a children’s coach at Beton Kempo SE for 2 years, practicing Zen Bu Kan Kempo and Brazilian Jiu-Jitsu.
